Alert!

New Email Scheme Targets Agents' Escrow Accounts

According to Entrust Solutions, agents are receiving emails appearing to be from their underwriter. The email asks the agents to CONFIRM YOUR WIRE INSTRUCTIONS WITH US. The email messages asks for wiring instructions to be sent to an email address from the underwriter.

Entrust reports that the fraudulent email may contain executable files if you click on the attached link in the email. Some of the attachments in the emails are labeled as WireReport.exe, however, it is a Trojan horse malware program.

The emails should be **deleted** and **do not** click on any attachments. Entrust encourages agents to contact their underwriter directly if they receive an email similar to this.

Should you have any questions or need additional information, please contact [Warren Hill](#), New Mexico Agency Manager, via email to: whill@oldrepublictitle.com, or telephone 505-994-6700.
