Old Republic has been made aware that there have been some recent transactions in which unauthorized wire transfers have been made from agent's accounts to recipients with accounts in foreign countries. The most recent incident involved an unauthorized \$500,000 wire transfer that went to a bank in China.

Once wires are sent internationally, including Canada and Mexico, it is difficult, *if not impossible*, to recover the funds. However, with appropriate pre-emptive controls in place this kind of fraud can be prevented.

The easiest and most effective control at combating these attacks is to have...
